

Herb Garden

48 Designs

Full Collection

When we were designing the Herb Garden collection we wanted to come up with something new. We started with over a dozen beautiful herb designs in unique holders like watering cans, teapots, mailboxes and boxes. Each of these designs are beautifully shaded and come in multiple sizes. We created a beautiful basket liner and tea towel with these designs. After these designs were finished we had another idea. We created herb signs that are created in your hoop, attach to a stick and inserted into your favorite herb pot. The signs are easy and fun to create.
